ERGIS

I would like to testify that, as a corporate group Ergis quoted on the WSE, we have been cooperating with Jastim for several years.

The field of our cooperation includes road transport deliveries mainly within European Union countries. The above mentioned company renders comprehensive, professional and reliable services.

It provides absolute care of transported cargo as well as ensures its permanent monitoring. The fleet complies to strict Euro 5 and Euro 6 emission standards, is technically sound and clean. Jastim drivers are very well trained and experienced what meets our requirements. I would like to underline our long-term relationship with effective and competent results. I certainly recommend company Jastim as a reliable logistic provider.
